Xenon 1900h

Area-Imaging Scanner

Xenon 1900h, designed specifically for healthcare, is redefining the standard for hand-held scanners. Honeywell's sixth-generation of area-imaging technology features a custom sensor that is optimized for bar code scanning. With industry-leading performance and reliability, the Xenon 1900h is well suited for a wide variety of healthcare applications that require the versatility of area-imaging technology.

Powered by Adaptus® Imaging Technology 6.0, Xenon 1900h delivers superior bar code scanning and digital image capture. Xenon 1900h incorporates a revolutionary decoding architecture along with a custom sensor, enabling extended depth of field, faster reading, and improved scanning performance on poor quality bar codes. From high density linear to 2D bar codes, Xenon 1900h decodes virtually all bar codes found in healthcare environments with ease.

A new space-saving, reliable design with fewer components minimizes downtime and improves serviceability, resulting in increased productivity. Its small form factor ensures that the Xenon 1900h fits well in virtually any sized hand, reducing operator fatigue.

Built with durability in mind, Xenon 1900h can withstand up to 50 drops to concrete from distances as high as 6 feet. Additionally, Xenon 1900h incorporates disinfectant-ready housing which resists the harmful effects of harsh cleaning agents used commonly in healthcare environments. Backed by a five-year warranty, Xenon 1900h is constructed to deliver years of uninterrupted performance.
