Inventory Control

Inventory Tracking Solutions for Small Businesses

InventoryControl

Get in control of your inventory with Wasp Inventory Control – the complete inventory tracking solution for small business. Wasp Inventory Control offers small businesses the ability to accurately track inventory, without the complexity or expense of an enterprise solution.

With Wasp Inventory Control, it's simple to track and manage inventory at multiple locations and sites. Easily create new inventory items, or import existing supplier and inventory data using the Import Wizard. Then create barcoded labels and tags for fast, efficient stock tracking. Inventory Control tracks when stock is added, removed, transferred, and checked-in or out, so inventory records are always accurate.

Pair Inventory Control software with a mobile computer to manage your inventory on-the-go. Inventory Control Standard allows you to sync updated inventory data from the mobile computer to your PC using a cable, while Inventory Control RF Professional and RF Enterprise give you the power to instantly update records using a mobile computer with 802.11 b/g/n wireless communication.

Inventory Control gives you powerful perspective on your business. Access over 60 business management reports, including total cost of inventory, inventory aging, transaction history, and more. Use Inventory Control's business alerts to receive notification of low stock levels, and quickly email purchase orders to your suppliers, ensuring that the stock you need is on hand. Wasp Inventory Control delivers the tools you need to ensure that your business is running smoothly, in an intuitive, easy-to-use interface.

Wasp Inventory Control is ideal for tracking stock in many applications, including:

- Warehouses
- Light manufacturing & distribution centers
- Retailers
- Stock rooms & supply closets
- Mobile trucks carrying inventory
- Installation contractors or any business that buys, stocks, and sells parts and products

► Manage your inventory
