WWS850

CORDLESS LASER SCANNER

Big Business Tools. Small Business Attitude.

The Wasp WWS850 cordless scanner gives you the freedom to roam, without the tangle of cords. Bluetooth® technology allows you to transmit barcode data up to 160 feet away from your PC with line-of-sight visibility. Data is instantly and accurately added into your active application.

The WWS850 features a laser scan engine for flexible scan range – easily read barcodes up to 25 inches away. The WWS850 complete kit includes a cordless barcode scanner, *Bluetooth* radio/recharge base with cable, and power supply.

Collect information on-the-go in warehouse, factory, field service and retail environments with the WWS850 cordless barcode scanner.

WASP WWS850 FEATURES
